

Mini-Porter-Cyclone MP-38S CF12

Instructions

- ① Please make sure the following parts are contained inside the package:

Mini-Porter-Cyclone	1
30L Stainless Steel (SUS) Tank with Caster stand	1
Casters (one with brake)	4
Spanner/ wrench for fastening casters	1
Hose.....	1
Hose Clamp	2
Suction Pipe	1
Cap Stopper	1
- ② Attach the casters with the caster stand at the bottom of 30L SUS tank and fasten well with the spanner/ wrench.
- ③ Put the Cyclone on top of the SUS tank and fasten with the draw latches.
- ④ Attach the hose with the suction mouth on the side of the Mini-Porter-Cyclone and fasten well with the hose clamp.
(It can be made easier by turning the hose clockwise while attaching.)
- ⑤ Connect the suction pipe with the hose and fasten well with the hose clamp.
(It can be made easier by turning the hose clockwise while attaching.)
- ⑥ Connect the hose of the vacuum cleaner/ Silent-Cleaner (our products) with the mouth on top of the Mini-Porter-Cyclone.
- ⑦ Suction will start as soon as the vacuum cleaner is switched on. Then start the suction after waiting for 2 or 3 seconds till the airflow stabilizes. Vacuum the particles with the air when operating.

★ **Caution**

- Please inspect and clean the SUS tank occasionally.
If the SUS tank fills up, the vacuumed dust flows to the cleaner.
- Please ground/ earth the device to control static electricity.
(Antistatic Hose is available for option.)

Cleaning Maintenance

※ Frequent maintenance is not needed for Mini-Porter-Cyclone. However, occasional cleaning is required in the inside of the body to maintain optimal performance. To clean, brush the inside occasionally. Especially after vacuuming the moist dust, brush well or wipe well with the dry cloth since the moist dust stays inside.

How to take off the Cyclone Cap

- ① Take off the hose.
 - ② Loosen the butterfly nut and take off the Cap Stopper.
 - ③ Fold the silicone packing as shown in the drawing and take off the Cyclone Cap.
Silicone packing should be kept half folded on the body.
- ※ To attach the Cyclone Cap, follow the reverse order of taking off.
When attaching, please make sure that the body and Cyclone Cap are not covered with any dust.
